Application for Lunch Pass

The College is serious about its responsibility to monitor the whereabouts of our students. All students are required to remain at the College during school hours unless parents have provided written consent to leave the premises.

The Department of Education guidelines indicate that students may be granted permission to go directly home for lunch where there is a parent available to provide supervision. A lunch pass does not allow students to go to the shops or other premises at lunchtime.

I accept the DEET guidelines and seek permission for the following student to obtain a lunch pass.
